# About Company

## Overview

**AMAFHH Technologies** is a Multi divisional, Indian software company specializing in areas of information technology. It was established in the year 2004 with the objective of providing consultancy and information technology services to the clients worldwide, with qualified, experienced and dedicated team of IT professionals.

**AMAFHH** is an emerging leader in the field of IT Services. Our approach focuses on new ways of business, combining IT innovations and adoption while also leveraging an organization's current assets. Our software answer strategic business questions which no one else can, enabling you to control cost, drive revenue, achieve capital efficiency and lead with confidence.

- **QUALITY**
- **TECHNOLOGY**
- **INNOVATION**
- **SERVICES**

We are ready to take unique challenges, ready to deliver quality results, on time, within budget, project after project. We are ready to deliver beyond all expectations and above all we are ready for the future. We are quick to respond to changing needs of our customers which is the key factor for the dramatic growth of the company over the short span of 2 year.

Our approach focuses on **new ways of business**, combining **IT innovations** and adoption while also leveraging an **organization's current assets**.

Our **capable and highly motivated employees** are the backbone of the organization

## Mission

**AMAFHH** is your one stop partner where you can outsource **all your support services** with complete peace of mind about **quality and reliability**.

## Infrastructure

**AMAFHH** is not only investing in their infrastructure in terms of buildings, technology and quality management systems but also in terms of the recruitment of high caliber personnel. It has capable and highly motivated employees who are the backbone of the organization. It's a "**AMAFHH**" for both professional and personal development.

We are equipped with the most latest technology computers and other related peripherals like Laser printers, Scanners, CD Writers, Fast Speed Processors, OCR's, Backup Drives, Structured Networking etc. For communication, we use ISDN connectivity at our Corporate Office. We use latest softwares in the day-to-day working of our organization.
